1. About Equity Trustees Limited

The Responsible Entity: Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298, AFSL 240975 a subsidiary of Equity Trustees Holdings Limited ABN 22 607 797 615, a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's Responsible Entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's Responsible Entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has delegated the investment management functions to Lincoln Indicators Pty Ltd which will make investment decisions in relation to the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The Custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager: Lincoln Indicators Pty Ltd

Lincoln Indicators Pty Ltd ("Lincoln" or "Investment Manager") is the investment manager of the Fund. Lincoln also separately manages the Lincoln Australian Income Fund. As a boutique fund manager, Lincoln specialises in identifying attractive Australian companies within our professionally managed funds. The funds managed by Lincoln are backed by Lincoln's academically-developed "Financial Health" methodology as well as Lincoln's experienced and dedicated team of investment professionals.

Founded in 1984 by esteemed academic and Olympian Dr Merv Lincoln, Lincoln was established as a consultancy business. Dr Lincoln's son Tim Lincoln, joined the business in 1991 and became Managing Director of Lincoln in 1997. In 2003 Lincoln's managed investment business was established originally with an Investor Directed Portfolio Service ("IDPS") and was replaced in 2005 with the Lincoln Australian Growth Fund for wholesale investors. In 2007 the retail investors were invited to invest. Today, Tim Lincoln oversees the managed investments business alongside the managed investments team.

2. How the Lincoln Australian Growth Fund works

The Lincoln Australian Growth Fund is a registered managed investment scheme. The Fund is comprised of two classes of units: Lincoln Wholesale Australian Growth Fund and Lincoln Retail Australian Growth Fund, which is a retail class. The Fund is governed by the Constitution. The Fund comprises of assets which are acquired in accordance with the Fund's investment strategy. You will acquire either wholesale or retail units in the Fund when you invest. Subject to the rights, obligations and restrictions of a class, each unit represents an equal undivided beneficial interest in the assets referable to the relevant class of the Fund subject to liabilities, but does not give you an interest in any particular property of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become a unitholder in the Fund. The operator or custodian of the IDPS will be the unitholder entered in the Fund's register and will be the only person who is able to exercise the rights and receive benefits of a unitholder. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the following explanation applies to direct investors.

Applying for units

Investors can acquire units by completing an application form. The minimum investment amount for the Lincoln Wholesale Australian Growth Fund is \$250,000 and the Lincoln Retail Australian Growth Fund is \$20,000.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day, is generally, equal to the net asset value of the class, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread").

The Application Price will vary for each class as the market value of assets of the class rise or fall.

Making additional investments

You can make additional investments in the Fund at any time by sending us your additional investment amount together with a current completed application form. You can also invest on a monthly basis via the Savings Plan for as little as \$250 per month. The minimum additional investment into the Lincoln Wholesale Australian Growth Fund is \$5,000 and the Lincoln Retail Australian Growth Fund is \$1,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period. The Fund usually distributes half yearly at the end of June and December. Distributions are calculated as at the last day of each period, and are normally paid to investors as soon as practicable after the distribution calculation date. Equity Trustees may amend the distribution frequency without notice.

In some circumstances, where an investor makes a large withdrawal request (5% or more of the units on issue at the start of the relevant distribution period), their withdrawal proceeds may be taken to include a component of distributable income. Investors can have their distribution reinvested or paid to a nominated bank account. Investors who do not indicate a preference will have their distributions automatically reinvested.

Indirect investors should review their IDPS Guide for information on how and when they receive any income distribution

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Link Market Services, PO Box 3721, Rhodes NSW 2138 or sending it by email to lincoln@linkmarketservices.com.au

The minimum withdrawal amount for both the Lincoln Wholesale Australian Growth Fund and the Lincoln Retail Australian Growth Fund is \$1,000.

Once we receive your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price for units of the Lincoln Retail Australian Growth Fund and Lincoln Wholesale Australian Growth Fund, is generally, equal to the net asset value of the Fund referable to that class, divided by the number of units on issue in that class, and adjusted for transaction costs ("Sell Spread").

Whilst the Fund is liquid, Equity Trustees will generally allow investors of the Fund to access their investment within 7 days of receipt of a withdrawal request by transferring the withdrawal proceeds to your nominated bank account. However, the Constitution allows Equity Trustees to make payment up to 30 days after receipt of a withdrawal request (which may be extended by a further 30 days in certain circumstances).

Equity Trustees can deny a withdrawal request in certain circumstances which will mean that you will not be able to withdraw your funds within the usual withdrawal period. These circumstances include when accepting the request would cause the Fund to cease being liquid or where the Fund is not liquid (as defined in the Corporations Act).

If you are an indirect investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the Fund's assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available to investors free of charge on request to Equity Trustees.

3. Benefits of investing in the Lincoln Australian Growth Fund

Access to sharemarket opportunities – investing in the Fund will provide exposure to a range of listed Australian companies, which an individual investor with limited funds for investment may not otherwise be able to obtain. This diversification is intended to reduce risk and exposure and increases stability.

Professional investment expertise – investing in the Fund enables investors to take advantage of the team of research and investment professionals at Lincoln. Your investment will be expertly managed by Australian equity specialists who bring a wealth of experience to the investment management process.

Freedom from administrative burden – investing in the Fund helps to free investors from the burden of ongoing paperwork and regular monitoring required when directly investing in sharemarkets. Investors will be provided with consolidated, comprehensive reports on the performance of the classes of units of the Fund.

Income from your investment – as well as seeking capital growth through an increase in unit prices, the Fund aims to provide investors with an income payment – in the form of a distribution – half yearly.

Fees – the Fund does not charge establishment, contribution or exit fees.

Time efficient – for investors who would like to outsource the work involved in direct investing and still access Lincoln’s fundamental “Financial Health” methodology.

4. Risks of managed investment schemes

Investment in any fund carries risks, including volatility of returns. Volatility refers to the degree to which returns may fluctuate around their long-term average. Each asset class, whether it is cash, fixed interest, property, Australian or international shares, have different levels of investment risk and the return achieved by each will vary accordingly. Higher risk assets, such as Australian shares, on average produce higher long-term returns than lower risk investments.

An investment in the Fund involves risk and neither the performance of the Fund nor the security of your investment is guaranteed by the Responsible Entity or the Investment Manager. The value of your investment in the Fund will vary and there is a risk that investors will lose some of their investment. The level of returns will vary, and future returns may differ from past returns. An acceptable level of risk will vary for each investor depending on a number of factors, the investor’s age, how long the investor intends to invest in the Fund, whether the investor has a diversified portfolio and the investor’s tolerance to risk. We recommend you talk to an adviser about the risks involved in investing in the Fund and how they might impact on your individual financial circumstances.

Company specific risk

There may be instances where the value of a company’s securities will fall because of company specific factors (for example, where a company’s major product is subject to a product recall). The value of a company’s securities can also vary because of changes to management, product, distribution or the company’s business environment.

Derivatives risk

Generally, in the case of Derivatives, fluctuations in price will reflect movements in the underlying assets, reference rate or index to which the Derivatives relate. The use of Derivatives to hedge the risk of movements in an underlying asset, reference rate or index involves ‘basis risk’, which refers to the possibility that Derivatives may not move perfectly in line with the underlying asset, reference rate or index.

As a consequence, Derivatives cannot be expected to perfectly hedge the risk of the underlying asset, reference rate or index. Other risks associated with Derivatives may include:

- loss of value because of a sudden price move or because of the passage of time;
- potential illiquidity of the derivative;
- the Fund being unable to meet payment obligations as they arise;
- the counterparty to any derivative contract not being able to meet its obligations under the contract; and
- significant volatility in prices.

Fund risk

As with all managed funds, there are risks particular to the Fund, including the possibility it could terminate, fees and expenses could change and the Responsible Entity and/or the Investment Manager may be replaced. There is also a risk that investing in the Fund may give different results than investing directly in the underlying shares. This might occur because of income or capital gains accrued in the Fund and the consequence of redemptions by other investors.

Interest rate risk

Changes in official interest rates can directly and indirectly impact on investment returns. Generally, an increase in interest rates has a contractionary effect on the state of the economy and the valuation of securities. For example, rising interest rates can have a negative impact on a company’s value as increased borrowing costs may cause earnings to decline. As a result, the company’s share price may fall.

Investment selection risk

The Investment Manager may make poor investment decisions resulting in substandard returns (for example where the Investment Manager invests in a company that significantly underperforms relative to the sharemarket). This risk is mitigated to some extent by the knowledge and experience of the Investment Manager.

Legal risk

There is a risk that laws, including tax laws or laws affecting registered managed investment schemes, might change or become difficult to enforce. This risk is generally higher in emerging markets (in which the Fund does not invest).

Liquidity risk

There may be times when investments may not be readily realised (for example, in a falling market where some traded securities may become less liquid). However, trading volumes of investments are generally sufficient to satisfy liquidity requirements when necessary. The Investment Manager attempts to mitigate the liquidity risk factor by ensuring that the Fund has sufficient cash exposure to meet liquidity requirements. Note that neither the Responsible Entity nor the Investment Manager guarantees the liquidity of the Fund’s investments.

Market risk

Changes in legal and economic policy, political events, technology failure, economic cycles, investor sentiment and social climate can all directly or indirectly create an environment that may influence (negatively or positively) the value of your investment in the Fund.

Regulatory risk

This is the risk that domestic laws or regulations are changed adversely or that regulatory supervision of transactions and reporting is performed by the Investment Manager at less than an appropriate standard. The Investment Manager aims to manage this risk by regularly and closely reviewing changes in the regulatory environment.

5. How we invest your money

The Fund invests in a range of industrial, financial and resource shares listed on the Australian Securities Exchange (“ASX”). Derivatives, such as futures, options, swaps and forward rate agreements will not be used to gear the Fund’s assets or for speculative purposes. The Fund may only use Derivatives as an alternative to direct purchases or sales, or to manage risk associated with market prices.

You should consider the likely investment return, the risk and your investment timeframe when choosing whether to invest in the Fund.

The table below shows a summary of the available investment option:

<i>Investment objective</i>	To outperform the All Ordinaries Accumulation Index over the medium to long term, after fees and expenses, with income distributed half-yearly.	
<i>Benchmark</i>	All Ordinaries Accumulation Index.	
<i>Minimum suggested timeframe</i>	The minimum suggested investment time frame for the Fund is at least 5 years.	
<i>Risk level of the Fund</i>	High. There is a risk investors may lose some or all of their investment. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term.	
<i>Investor suitability</i>	The Fund is designed to suit investors seeking a medium to long term investment that provides the potential for capital growth with some income.	
<i>Asset allocation</i>	The asset allocation benchmark for the Fund is stated in the table below. While the benchmark reflects the intended asset allocation at any time, from time to time prevailing market conditions or liquidity requirements may see the Fund alter its asset allocation.

	Australian Shares	100% 92.07%
	Cash	0% 7.93%

*As at 1/05/2018. Asset allocations can change over time.

Investment style and approach

The unique Lincoln research methodology (as documented by Dr Merv Lincoln) involves rigorous analysis of company fundamentals to assess each prospective investment’s financial health and strength. Drawing on both quantitative and qualitative research, Lincoln screens a broad range of shares listed on the ASX, including trusts that invest in listed shares.

The selection of individual shares for the Fund is guided primarily by Lincoln’s unique investment methodology. Lincoln aims to invest directly in shares and indirectly by investing in trusts that invest in shares. Lincoln targets financially healthy companies with strong management earnings and growth, thereby exhibiting long-term growth potential. This reflects the philosophy that quality companies demonstrate their potential through performance and Financial Health.

Investment style and approach

The Lincoln investment process involves the assessment of the following factors:

- The financial health of the business – a measure of a company’s quality which is demonstrated in its financial accounts (bank and insurance companies are deemed healthy due to their more stringent regulatory requirements).
- A set of quantitative and qualitative measures are also assessed including:
 - management of the company;
 - its profitability;
 - its relative share price value; and
 - overall business performance.

The final investment decision is based on a combination of quantitative scores and relevant qualitative factors such as recent company developments, changes in earnings outlook and the likelihood of maintaining quantitative scores.

Labour, environmental, social and ethical considerations

Equity Trustees and Lincoln do not specifically take into account labour standards or environmental, social or ethical considerations for the purposes of selecting, retaining or realising investments. However, where earnings sustainability of the companies that the Fund invests in may be impacted by factors such as poor labour standards or environmental, social or ethical matters, investment holdings will be reviewed in light of those issues and may be removed from the Fund, or the Fund’s exposure may be reduced.

Fund performance

Fund performance is available from www.lincolnindicators.com.au or by calling Lincoln on **1300 676 333**. Please note that due to the historical nature of performance information and the volatility of returns, future returns may differ from past returns.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100 000 to \$80 000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following table can be used to compare costs between this and other simple managed investment schemes. Fees and costs may be paid directly from your investment or deducted from investment returns. For information on how managed investment schemes are taxed please see Section 7 of this PDS.

Type of fee or cost	Amount

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

² Management fees can be negotiated.

³ This represents the performance fees which are payable as an expense of the Fund to Lincoln. See “Performance fees” for more information

Additional explanation of fees and costs

What do the Management costs pay for?

Management costs comprise the additional fees or costs that a unitholder incurs by investing in the Fund rather than by investing directly in the assets. The management fees of the NAV of the Fund are payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees are accrued daily and paid from the Fund monthly in arrears.

As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management fees at no additional charge to you.

The management costs shown above do not include extraordinary expenses (if they are incurred in future) such as litigation costs, the costs of convening unitholder meetings and other costs.

In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be recovered through Buy/Sell Spreads).

Performance fees

Performance fees are payable to the Investment Manager where the investment performance of the Fund exceeds the performance of the All Ordinaries Accumulation Index. The performance fees are 20% of this excess, calculated daily and paid half-yearly in arrears from the Fund and calculated based on the beginning NAV of the Fund over the relevant period.

No performance fees are payable until any accrued underperformance (in dollar terms) from prior periods has been made up.

Based on the current calculation methodology for the performance fees, we have estimated that the typical ongoing performance fees payable per annum may be \$1,475 (inclusive of GST and net of any RITC) assuming an average account balance of \$250,000 in the Lincoln Wholesale Australian Growth Fund during the year. The calculation is based on average outperformance from 30 June 2013 to 30 June 2018 of 2.89% per annum (after deduction of management fees and excluding any performance fee accrual).

Based on the current calculation methodology for the performance fees, we have estimated that the typical ongoing performance fees payable per annum may be \$205 (inclusive of GST and net of any RITC) assuming an average account balance of \$50,000 in the Lincoln Retail Australian Growth Fund during the year. The calculation is based on average outperformance from 30 June 2013 to 30 June 2018 of 1.99% per annum (after deduction of management fees and excluding any performance fee accrual). However, this is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the benchmark.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be, but it will be reflected in the management costs for the Fund for the relevant year. Information on current performance fees will be updated from time to time and available at www.eqt.com.au.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all proper and reasonable expenses incurred in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum fees that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. This generally happens when the assets of a fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of a fund.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy/Sell Spread is paid into the Fund and not paid to Equity Trustees or the Investment Manager.

The estimated Buy/Sell Spread is 0.35% upon entry and 0.35% upon exit. The dollar value of these costs based on an application or a withdrawal of \$20,000 is \$70 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and redemptions arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price. As

these costs are factored into the net asset value of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread.

During the financial year ended 30 June 2018, the total transaction costs for the Fund were estimated to be 0.45% of the NAV of the Fund, of which 45.79% of these transaction costs were recouped via the Buy/Sell Spread, resulting in a net transactional cost to the Fund of 0.25% p.a. However, such costs for future years may differ.

Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

Example 1

Example – Lincoln Retail Australian Growth Fund		BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management costs comprising:	1.81% p.a.	And for every \$50,000 you have in the Fund, you will be charged \$905 each year comprising:
Management fees:	1.40% p.a.	\$700
Performance fees:	0.41%	\$205 (refer to performance fee section)
EQUALS Cost of fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees from: \$905** What it costs you will depend on the fees you negotiate.

Example 2

Example – Lincoln Wholesale Australian Growth Fund		BALANCE OF \$250,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management costs	1.35% p.a.	And for every \$250,000 you have in the Fund, you will be charged \$3,375 each year comprising:
Management fees:	0.76% p.a.	\$1,900
Performance fees:	0.59%	\$1475 (refer to performance fee section)
EQUALS Cost of fund		If you had an investment of \$250,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees from: \$3,375** What it costs you will depend on the fees you negotiate.

** This example assumes the \$5,000 contribution occurs at the end of the year, therefore management costs are calculated using the respective \$50,000 and \$250,000 balance only.

Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread. WARNING: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on your investment in the Fund.

The performance fees stated in this table shows the estimated performance fees for the financial year ended 30 June 2019 as a percentage of the Fund's average NAV. The performance of the Fund, and the performance fees, may be higher or lower or not payable in the future. As a result, the management costs may differ from the figure shown in the table. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future. See also above (next to the heading "Performance fees") our estimated typical ongoing performance fees fee payable per annum. The actual indirect costs and performance fees for the current financial year and for future financial years may differ. For more information on the performance history of the Fund, visit Equity Trustees' website at www.eqt.com.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about

the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust, are attributed to them.

Additional Information

In most cases, the information that you provide in this form will satisfy the AML/CTF Act, the US Foreign Account Tax Compliance Act ('FATCA') and the Common Reporting Standards ('CRS'). However, in some instances the Responsible Entity may contact you to request

further information. It may also be necessary for the Responsible Entity to collect information (including sensitive information) about you from third parties in order to meet its obligations under the AML/CTF Act, FATCA and CRS.

Declarations

When you complete this Application Form you make the following declarations:

- I/We have received the PDS and made this application in Australia.
- I/We have read the PDS to which this Application Form applies and agree to be bound by the terms and conditions of the PDS and the Constitution of the Fund in which I/we have chosen to invest.
- I/We have considered our personal circumstances and, where appropriate, obtained investment and / or taxation advice.
- I/We hereby declare that I/we are not a US Person as defined in the PDS.
- I/We acknowledge that (if a natural person) I am/we are 18 years of age or over and I am/we are eligible to hold units in the Fund in which I/we have chosen to invest.
- I/We acknowledge and agree that Equity Trustees have outlined in the PDS provided to me/us how and where I/we can obtain a copy of the Equity Trustees Group Privacy Statement.
- I/We consent to the transfer of any of my/our personal information to external third parties including but not limited to fund administrators, fund investment manager(s) and related bodies corporate who are located outside Australia for the purpose of administering the products and services for which I/we have engaged the services of Equity Trustees or its related bodies corporate and to foreign government agencies for reporting purposes (if necessary).
- I/we hereby confirm that the personal information that I/we have provided to Equity Trustees is correct and current in every detail, and should these details change, I/we shall promptly advise Equity Trustees in writing of the change(s).
- I/We agree to provide further information or personal details to the Responsible Entity if required to meet its obligations under anti-money laundering and counter-terrorism legislation, US tax legislation or reporting legislation and acknowledge that processing of my/our application may be delayed and will be processed at the unit price applicable for the Business Day as at which all required information has been received and verified.
- If I/we have provided an email address, I/we consent to receive ongoing investor information including PDS information, confirmations of transactions and additional information as applicable via email.
- I/We acknowledge that Equity Trustees does not guarantee the repayment of capital or the performance of the Fund or any particular rate of return from the Fund.
- I/We acknowledge that an investment in the Fund is not a deposit with or liability of Equity Trustees and is subject to investment risk including possible delays in repayment and loss of income or capital invested.
- I/We acknowledge that Equity Trustees is not responsible for the delays in receipt of monies caused by the postal service or the applicant's bank.
- If I/we lodge a fax application request, I/we acknowledge and agree to release, discharge and agree to indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from any fax application.
- If I/we have completed and lodged the relevant sections on authorised representatives/agents on the Application Form then I/we agree to release, discharge and indemnify Equity Trustees from and against any and all losses, liabilities, actions, proceedings, account claims and demands arising from Equity Trustees acting on the instructions of my/our authorised representatives, agents and/or nominees.
- If this is a joint application each of us agrees that our investment is held as joint tenants.
- I/We acknowledge and agree that where the Responsible Entity, in its sole discretion, determines that:
 - I/we are ineligible to hold units in a Fund or have provided misleading information in my/our Application Form; or
 - I/we owe any amounts to Equity Trustees, then I/we appoint the Responsible Entity as my/our agent to submit a withdrawal request on my/our behalf in respect of all or part of my/our units, as the case requires, in the Fund.

Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements. For more information about the use of TFNs for investments, contact the enquiries

section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

When you sign this Application Form you declare that you have read and agree to the declarations above.
