1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund’s responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees’ responsibilities and obligations as the Fund’s responsible entity are governed by the Fund’s constitution (“Constitution”), the Corporations Act and general trust law. Equity Trustees has appointed Lincoln Indicators Pty Ltd as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Lincoln Indicators Pty Ltd

Lincoln Indicators Pty Ltd (“Lincoln” or “Investment Manager”) is the investment manager of the Fund. Lincoln also separately manages the Lincoln Australian Income Fund and the Lincoln Australian Growth Fund. Lincoln’s unique investment strategy leverages off its core quantitative models to develop portfolios suitable for Australian investors to assist in meeting their equity investment objectives. The funds managed by Lincoln are backed by Lincoln’s academically-developed “Financial Health” methodology as well as Lincoln’s experienced and dedicated team of investment professionals.

Founded in 1984 by esteemed academic and Olympian Dr Merv Lincoln, Lincoln was established as a consultancy business. Dr Lincoln’s son Tim Lincoln, joined the business in 1991 and became Managing Director of Lincoln in 1997. Tim is the Executive Chairman and Chief Investment Officer for the managed fund business. Lincoln have been providing investment management solutions for Australian investors since 2003, and have organically grown their funds under management to over \$700m.

2. How the Lincoln U.S. Growth Fund Unhedged works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund’s investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund’s register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing an online application (see section 8 for details) or the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$5,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

**Link Market Services Limited,
Locked Bag 5038
Parramatta NSW 2124**

Please note that cash cannot be accepted.

You can apply using the following options: Electronic Funds Transfer ("EFT") and also via cheque. Please refer to the Reference Guide for more information.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the class, divided by the number of units on issue for that class and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.25%.

The Application Price will vary as the market value of assets in the class rises or falls.

Making additional investments

You can make additional investments into the class at any time by sending us your additional investment amount together with a completed Application Form or via BPAY®. You can also invest on a monthly basis via a direct debit payment as a Regular Savings Plan ("RSP") for as little as \$250 per month (please refer to the Reference Guide for more information). The minimum additional investment into the Fund is \$1,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually at the end of June, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a request within the investor portal online or completing the Redemption Request Form and mailing it to:

**Link Market Services Limited,
Locked Bag 5038
Parramatta NSW 2124**

or email lincoln@linkmarketservices.com.au

Please note that the Redemption Request Form can be accessed in the 'forms' section of the Lincoln Web Portal.

The minimum withdrawal amount is \$1,000. For written withdrawal requests, once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s). If your withdrawal request is completed through the Lincoln Web Portal,

then we may act on your instruction without further enquiry as the verification is completed electronically

Equity Trustees will generally allow an investor to access their investment within 7 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated AUD Australian domiciled bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.25%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$50,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Counterparty risk

There is a risk that the Fund may incur a loss arising from the failure of another party to a contract (the counterparty) to meet its obligations. Counterparty risk arises primarily from investments in cash, derivatives and currency transactions. Substantial losses can be incurred if a counterparty fails to deliver on its contractual obligations.

Company specific risk

There may be instances where the value of a company's securities will fall because of company specific factors (for example, where a company's major product is subject to a product recall). The value of a company's securities can also vary because of changes to management, product, distribution or the company's business environment.

Currency risk

As the Fund's investments in international assets are unhedged, a rise in the Australian dollar relative to other currencies will negatively impact investment values and returns. Currency markets can be extremely volatile and are subject to a range of unpredictable forces. It is not the Responsible Entity's intention to hedge the foreign currency exposure of the Fund arising from investments in overseas markets.

Derivatives risk

Generally, in the case of derivatives, fluctuations in price will reflect movements in the underlying assets, reference rate or index to which the

derivatives relate. The use of derivatives to hedge the risk of movements in an underlying asset, reference rate or index involves 'basis risk', which refers to the possibility that derivatives may not move perfectly in line with the underlying asset, reference rate or index.

As a consequence, derivatives cannot be expected to perfectly hedge the risk of the underlying asset, reference rate or index. Other risks associated with derivatives may include:

- loss of value because of a sudden price move or because of the passage of time;
- potential illiquidity of the derivative;
- the Fund being unable to meet payment obligations as they arise;
- the counterparty to any derivative contract not being able to meet its obligations under the contract; and
- significant volatility in prices.

Fund risk

As with all managed funds, there are risks particular to the Fund, including the possibility it could terminate, fees and expenses could change and the Responsible Entity and/or the Investment Manager may be replaced. There is also a risk that investing in the Fund may give different results than investing directly in the underlying shares. This might occur because of income or capital gains accrued in the Fund and the consequence of redemptions by other investors.

Interest rate risk

Changes in official interest rates can directly and indirectly impact on investment returns. Generally, an increase in interest rates has a contractionary effect on the state of the economy and the valuation of securities. For example, rising interest rates can have a negative impact on a company's value as increased borrowing costs may cause earnings to decline. As a result, the company's share price may fall.

Investment selection risk

The Investment Manager may make poor investment decisions resulting in substandard returns (for example where the Investment Manager invests in a company that significantly underperforms relative to the share market). This risk is mitigated to some extent by the experience of the Investment Manager.

Legal risk

There is a risk that laws, including tax laws or laws affecting registered managed investment schemes, might change or become difficult to enforce. This risk is generally higher in emerging markets (in which the Fund does not invest).

Liquidity risk

There may be times when investments may not be readily realised (for example, in a falling market where some traded securities may become less liquid). However, trading volumes of investments are generally sufficient to satisfy liquidity requirements when necessary.

The Investment Manager attempts to mitigate the liquidity risk factor by ensuring that the Fund has sufficient cash exposure to meet liquidity requirements. Note that neither the Responsible Entity nor the Investment Manager guarantees the liquidity of the Fund's investments.

Market risk

Changes in legal and economic policy, political events, technology failure, economic cycles, investor sentiment and social climate can all directly or indirectly create an environment that may influence (negatively or positively) the value of your investment in the Fund.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

Regulatory risk

There is a risk that changes to laws, regulations or accounting standards governing a security (including in the U.S. market) could have an adverse impact on the Fund or on its investments. A change in laws or regulations can increase the costs of operating a business and/or change the competitive landscape.

5. How we invest your money

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

Over the medium to long term, the Fund aims to outperform the Australian Dollar return of the S&P 500 Total Return Index

Benchmark

S&P 500 Total Return Index converted to Australian Dollars

Minimum suggested time frame

5-10 years

Risk level

High. There is a risk investors may lose some or all of their investment. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term.

Investor suitability

The Fund is designed to suit investors seeking a medium to long term investment in the U.S. equity market that provides the potential for capital growth with some income.

Investment style and approach

Lincoln's proprietary Financial Health model (based on Dr Merv Lincoln's research) applies the discriminant analysis of a company's financial statements to measure its level of insolvency risk. This quantitative assessment is combined into a multi-factor model of various investment styles, forming the basis for Lincoln's stock selection process.

The Fund aims to invest in a portfolio of financially healthy stocks that exhibit strong capital efficiency, high earnings quality and strong cash flow yields relative to their industry group.

The Fund generally invests in large-cap U.S. companies, which the Investment Manager considers to be those companies with market capitalisations within the S&P 500 Total Return Index. The Fund may also invest in mid-cap securities.

The Investment Manager may also employ portfolio optimisation measures to produce favourable risk-adjusted returns. This may include hedging market risk by investing in Exchange Traded Funds (ETFs) that buy or sell derivative instruments which intend to produce returns that are inversely correlated with specific equity market indices, such as the Fund's benchmark. Investing in these ETFs allows the Investment Manager to efficiently reduce portfolio beta (risk) if they anticipate future market volatility. The investment in ETFs is intended to be for hedging purposes only.

Asset allocation

The asset allocation target for the Fund is stated in the table below. While the target reflects the intended asset allocation at any time, from time to time prevailing market conditions or liquidity requirements may see the Fund alter its asset allocation.

Security	Minimum Holding	Maximum Holding
U.S Equities	50%	100%
EFTs	0%	30%
Cash	0%	50%

Derivatives such as futures, options, swaps and forward rate agreements may be used, but these will not be used to gear the Fund's assets.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

Lincoln do not specifically take into account labour standards or environmental, social or ethical considerations for the purposes of selecting, retaining or realising investments. However, where earnings sustainability of the companies that the Fund invests in may be impacted by factors such as poor labour standards or environmental,

social or ethical matters, investment holdings will be reviewed in light of those issues and may be removed from the Fund, or the Fund's exposure may be reduced. However, these factors are not assessed in accordance with any predetermined weighting or methodology.

Fund performance

Fund performance is available from www.lincolndicators.com.au or by calling Lincoln on 1300 676 333. Please note that due to the historical nature of performance information and the volatility of returns, future returns may differ from past returns.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website

(www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2022.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Performance fees

Performance fees include amounts that are calculated by reference to the performance of the Fund. The performance fees for the Fund are 0.08% of the NAV of the Fund. The performance fee figure that is disclosed in the Fees and Costs Summary is generally based on an average of the performance fees over the previous five financial years, where each performance fee relevant to the Fund is averaged and totalled to give the performance fees for the Fund.

In terms of the performance fees payable to the Investment Manager, a performance fee is payable where the investment performance of the Fund exceeds the performance of the S&P 500 Total Return Index converted to Australian Dollars ("Benchmark"). The performance fees are 20% of this excess, calculated daily and paid half-yearly in arrears from the Fund and calculated based on the beginning NAV of the Fund over the relevant period.

No performance fee is payable until:

- the Net Asset Value of the Fund* as at the end of the relevant performance fee period is greater than the Net Asset Value of the Fund as at the end of the last performance fee period for which a performance fee was paid; and/or
- any accrued underperformance (in dollar terms), as against the Benchmark, from prior periods has been made up.

This is collectively referred to as the High Water Mark.

*Note that the Net Asset Value as at the end of the relevant performance fee period is adjusted for any change in the Net Asset Value as a result of applications, redemptions or distributions since the end of the last performance fee period for which a performance fee was paid.

Please note that the performance fees disclosed in the Fees and Costs Summary is not a forecast as the actual performance fee for the current and future financial years may differ. The Responsible Entity cannot guarantee that performance fees will remain at their previous level or that the performance of the Fund will outperform the Benchmark.

It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be. Information on current performance fees will be updated from time to time and available at www.eqt.com.au/insto.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.25% upon entry and

Additional explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 1.00% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect

0.25% upon exit. The dollar value of these costs based on an application or a withdrawal of \$5,000 is \$12.50 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto or www.lincolnindicators.com.au will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.40% p.a. of the NAV of the Fund, which is based on the relevant costs incurred during the financial year ended 30 June 2022.

In relation to the costs that have been estimated, they have been estimated on the basis of annualised figures based on the actuals to date but under 12 months.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on 1300 676 333 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Lincoln US Growth Fund Unhedged		
Balance of \$50,000 with a contribution of \$5,000 during the year		
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.00% p.a.	And , for every \$50,000 you have in the Lincoln US Growth Fund Unhedged you will be charged or have deducted from your investment \$500 each year
PLUS Performance fees	0.08% p.a.	And , you will be charged or have deducted from your investment \$39 in performance fees each year

EXAMPLE – Lincoln US Growth Fund Unhedged (continued)

Balance of \$50,000 with a contribution of \$5,000 during the year

PLUS Transaction costs	0.23% p.a.	And , you will be charged or have deducted from your investment \$115 in transaction costs
----------------------------------	------------	---

EQUALS Cost of Lincoln US Growth Fund	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$654*	What it costs you will depend on the investment option you choose and the fees you negotiate.
---	---	--

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances. The performance fees stated in this table are based on the average performance fee for the Fund, over the previous five financial years. The performance of the Fund for this financial year, and the performance fees, may be higher or lower or not payable in the future. It is not a forecast of the performance of the Fund or the amount of the performance fees in the future.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further Reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto or www.lincolnindicators.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further Reading

You should read the important information about Taxation under the “Other important information” section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto or www.lincolnindicators.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete an online application (see more details below) or the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

**Link Market Services Limited,
Locked Bag 5038
Parramatta NSW 2124**

Online application

Investors can also complete the application process online (please go to www.lincolnindicators.com.au for further instructions). If you choose to apply for units in the Fund online you will be required to register, confirm your acceptance of the terms and conditions and download a copy of this PDS prior to proceeding. Further, in submitting your consent, you acknowledge that LAB Group will be used to perform inter alia electronic identification verification of the personal information submitted in the Online Account Application. You acknowledge that the online application includes the option to complete our AML and KYC requirement online via LAB Group and to submit the application directly using an electronic signature.

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the ‘About this PDS’ section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a ‘cooling off’ period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor’s investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Once provided, your TFN will be applied automatically to any future investments in the Fund where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. **Exempt investors should attach a copy of the certificate of exemption.
